Profile

Engineering student specialized in Industrial Engineering, seeking a 6-month internship starting late February-early March. Worked in a team, both professionally and during my studies. Also able to work independently, as demonstrated in multiple personal projects. Excited to apply the theoretical knowledge learned to real-world challenges, and to learn more in the field.

Education

Master of Science in Industrial Engineering and IT

Polytech Marseille [🔗](#)

2021 – 2024

Marseille, France

Higher School Preparatory Classes in Technology and Industrial Sciences
